Butterflies Intro... How do butterflies change... What do butterflies look like... What is our responsibility to butterflies... Conclusion

Butterfly Intro
Have you ever seen all the butterflies’ colors on a butterfly’s wing? Find out as you read this book.

How can butterflies change?
A butterfly starts off as an egg. It changes into a caterpillar. Then the caterpillar will eat and eat. Once it is done it will start to make a chrysalis. It will stay in it for 10-14 days. After that it will turn into a butterfly!

What does it look like?
Butterflies have 6 legs just like grasshoppers, ants, and ladybugs. Butterflies have four wings. Each wing is covered with thousands of tiny scales. The scales give butterflies wings their bright colors. Butterflies come in all different colors.

What is our responsibility to butterflies?
If you see a butterfly, don’t chase it or it could get scared. If I were you I would just take a look at it and then walk away.

Conclusion
Butterflies are nice and sweet. Read more books about butterflies and learn more.
